

Designer

concrete stencil

Stock Stencil Patterns available (Custom Logos & Motifs manufactured on request - P.O.A.)

SPECIAL NOTE: The 0.9m version of the STAR ROSETTE does NOT have either the 2nd brick row (from outer edge) or the inner brick row (around centre circle).

Stock Colour Hardeners available (Special colours manufactured on request - P.O.A.)

IMPORTANT NOTICE: This brochure is for general guidance only. Colours and patterns are indicative since normal printing processes limit accuracy. Colour variation can also occur in the actual finished product resulting from different batched materials and composition of pre-mixed concrete from time to time since they are derived from natural sources and, product placement and finishing practices used by independent concrete contractors. Designer Concrete Coatings Pty Ltd reserves the right to change or alter its standard colour and pattern range without notice as a consequence of raw materials supply and/or market demand.

concrete stencil

discover the strong decorative appeal of designer concrete coatings....

Driveways:

A variety of distinctive driveway surface colours and stencil pattern designs to complement the home, villas or units you build or renovate.

Recreational:

The ideal choice for courtyards and any outdoor area, the tested and proven performance of Designer Concrete Coatings' products offer distinctive & personalised appearance, durability, economy and low maintenance.

pool surrounds:

Hardwearing, slip resistant pool paving surfaces of splendid decorative quality. Tile, brick or stone patterns bring to life a variety of pool shapes and styles. Designer Concrete Coatings also manufacture quality pool finishes when you renovate, remodel or build a concrete pool that create simply stunning low maintenance interiors of lasting value and appearance.

streetscapes:

Public works projects require aesthetically pleasing paving products that are durable, abrasion resistant and low maintenance. Designer Concrete Coatings meet this criteria for public works projects – fully proven fit-for-purpose to relevant Australian/New Zealand Standard test methods.

features & benefits:

- **Economy and Value.**
Strong, durable. A myriad of paving patterns and colour options. Cost competitive to clay brick or tile alternatives.
- **Skid Resistant.**
A textured finish appropriate for pavement slope is a safety feature for wet and dry conditions.
- **Low Maintenance.**
Abrasion resistant to pedestrian and general vehicular traffic when applied in accordance with proper and workmanlike method.
- **Quality Assurance.**
Australian made. Proven fit-for-purpose to relevant Australian/New Zealand test methods. Written product warranty.
- **Multitude of Paving Applications.**
Driveways, footpaths, patios, terraces, courtyards, pool surrounds, streetscapes ... and many more.
